Tattoo or Hair Salons

Industrial Applications

Automotive Maintenance or Repair

Law Enforcement

Parts Handling

Janitorial

Painting and Finishing

Electronic Applications

RDNBLPF

KeepKleen® Shadow Disposable Nitrile Non-sterile Powder-free Gloves

KeepKleen® Shadow is a black, non-sterile, 100% nitrile powder-free, medical-grade glove that provides superior strength and better puncture resistance than most other disposables. Gloves are 4 mil. thick with a textured surface for increased grip and excellent touch sensitivity. Nitrile provides an alternative glove solution for individuals who are allergic to natural rubber latex. Cuff edges are beaded for extra strength to prevent ripping during donning. Gloves come in dispenser boxes of 100 for better value and greater convenience. Manufactured in an ISO 9002 registered facility, gloves are tested and certified under ISO 11193.

RDNBLPF KeepKleen® Shadow black, 4 mil. nitrile, powder-free, textured surface,
Sizes: XS - XL

Symptoms of Latex Allergies

- Red, crusty rash stopping at the wrist where the glove ends
- Red, itchy bumps sometimes associated with runny nose, red eyes and/or asthma

How to Avoid Latex Allergies

- Latex allergies are often aggravated by powdered gloves which can carry latex proteins. Use a non-powdered glove

KeepKleen

Engineered hand protection for every industry®
